Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Preliminary Comments

1. Applicant's Amendments dated 27 May 2003 have placed the Application in a condition for allowance as written. Accordingly, the following represents a reasoned statement for allowability.

Allowable Subject Matter

2. Claims 1, 3-11 and 13-21 are allowed, since each contains subject matter which the prior art does not teach or suggest.

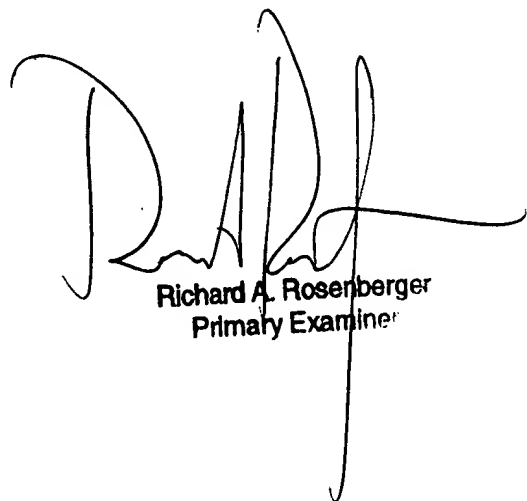

3. Claim 1 contains the features whereby the determination of the mineral scale deposition rate in a formation fluid is accomplished by placing an optical probe in contact with the fluid and measuring the changes in the refractive index, and in which the probe is an ATR (attenuated total reflectance) probe. Claims 3-10 are allowable based on their dependency upon the claim from which each is dependent. Claim 11 contains the features whereby controlling the mineral scale deposition rate in a formation fluid is accomplished by placing an optical probe in contact with the fluid and measuring the changes in the refractive index, in which the probe is an ATR (attenuated total reflectance) probe, and determining the on-set and rate, if any, of mineral scale deposition from the formation fluid as a function of the changes in the refractive index at the probe surface. Claims 13-20 are allowable based on their dependency upon the claim from which each is dependent. Claim 21 Claim 11 contains the features whereby controlling the

Art Unit: 2877

mineral scale deposition rate in a formation fluid is accomplished by placing an optical probe in contact with the fluid and measuring the changes in the refractive index.

CONCLUSION

4. Applicants' Claims 1, 3-11 and 13-21 are allowed based on the reasons set forth above.
5. Applicants have canceled Claims 2 and 12.
6. Any inquiries concerning this communication from the Examiner should be directed to Vincent P. Barth, whose telephone number is 703-605-0750, and who may be ordinarily reached from 9:00 a.m. to 5:30 p.m., Monday through Friday.
